

This is a sample document for vocabulary analysis.

The implementation of this project utilizes complex algorithms to identify distinct words based on their CEFR levels.

We use Python as our programming paradigm.

The esoteric nature of some words might trigger the higher level classification.

Glossary

classification (B2): Definition for classification

identify (B2): Definition for identify

programming (B2): Definition for programming

project (B2): Definition for project

utilize (B2): Definition for utilize
