

This is a sample document for vocabulary analysis.

The implementation of this project utilizes complex algorithms to identify distinct words based on their CEFR levels.

We use Python as our programming paradigm.

The esoteric nature of some words might trigger the higher level classification.

Glossary

cefr (*NOUN*, C2): Definition not found for cefr

classification (*NOUN*, B2): The act of forming into a class or classes; a distribution into groups, as classes, orders, families, etc., according to some common relations or attributes.
